

ATTENTION FARMERS

**AG PLASTICS RECYCLING
PROGRAM TEMPORARILY CANCELED**

We want to thank you for participating in the Ag Plastics Recycling Program over the last six years. Thanks to your dedication and the dedication of our business drop-off locations, over 729 tons (1,458,520 pounds) of plastics were kept out of the landfill. Unfortunately, we have lost local sources for processing the materials at this time. Be assured that we will work diligently to get this program back up and running better than ever as soon as possible.

Please discontinue bringing your plastics to the drop-off locations immediately.
